## ROTH BAR

Björn and Oddur Roth, the son and grandson of the late artist Dieter Roth were artists-in-residence at Hauser & Wirth Somerset in 2014, and were the first artists to be invited to work in the newly renovated Maltings studio space. During their residency, they focused on creating the fully-functioning, site-specific bar that sits at the heart of the Roth Bar & Grill.

First conceived by Dieter Roth in the early 1980s, 'the bar' is a dynamic and changing installation, and is a continuing element in the Roths' cross-generational practice. As a condition for him to exhibit with Hauser & Wirth, Dieter Roth insisted that a bar form part of his first show in 1997. Along with his son Björn, Dieter Roth installed the functional 'Bar 2' (1983 - 1997) around the corner from the gallery in Zurich. Every beer bottle served became a part of the bar installation and visitors' conversations were recorded and archived.

This Roth bar in Somerset is comprised of locally-sourced scavenged materials, a central motif found throughout Dieter Roth's work. It also incorporates monitors showing videos, musical instruments and carpentry scraps. It is a place where art becomes infused with life, bringing into question the relationship between its function and its status as an artwork.

This idea of bridging the gap between life and art is continued through the Roths' construction of a cloakroom and a group of hand-crafted bookshelves made for the gallery's shop. The minimal structured form and areas of compartmentalization within the bookshelves complement the chaotic intensity of the bar area. At Hauser & Wirth Somerset, the Roth Bar & Grill is an ongoing art installation, which visitors pass through, use and experience as an everyday environment.
